Fights Dam Profits

Here is Representative Sarah Hughes, diminutive and combative Texas legislator, who says she will continue her fight against the bill creating the Colorado River Authority unless it is amended to provide certain features. Mrs. Hughes charged on the floor of the House that 51 per cent of $3,200,000 of the $4,500000 PWA loan asked for under the bill presumably would be received by Ralph W. Morrison, multi-millionaire of San Antonio, who obtained the loan from the Federal government after it had first been turned down by Administrator Ickes. She contends that the government loan should be retired before the promotors get their money. (Texas News Photos.)

"Down to Their Last Yacht" Big Musical Extravaganza to Open at Cameron on Sunday

Refuting the general belief that the state of Utopia will not be reached until everybody is financially independent, "Down to Their Last Yacht" the musical fantasy opens at the Cameron Theatre Sunday, October 21, shows that this blissful state is attained when one becomes content with the many and lavish gifts of Nature.

The story recounts the hilarious adventures of members on a yachting cruise of the South Seas. The crew and servants are down-and-out bluebloods, reduced to work for a living, and the passengers are of the newly-rich class, aspiring to climb the social ladder.

When the yacht is stranded on the shores of Malakamokalu, an island paradise where there is nothing to do but revel, and where wordly possessions, including starcher shirts are of no importance, the new arrivals first shrink from, then embrace the idea of settling down to enjoy life to the fullest.

Beautiful melodies by a half dozen popular composers are interpolated throughout this fantastic musical comedy. Spectacular exotic ensemble dances are featured as well.

Mary Boland, as the queen of this island furnishes much of the comedy, as does Polly Moran in the role of a hard-boiled promoter of social climbers. Frozen faced Ned Sparks is the captain of her yacht, and the romantic leads, are entrusted to Sidney Fox and Sidney Blackmer. Others in the large cast of name parts are Sterling Holloway, Marjorie Gateson, Irene Franklin, Tom Kennedy, Hazel Forbes, Charles Coleman and Ramsey Hill. Paul Sloane directed.

She came to Texas in October, 1889, and was on the 5th day of November, 1891 happily married to Mr. John Charles of Milam County, Texas, who preceeded her to the better land more than 8 years. Rev. Mr. Brinson officiated at their marriage. To this union was born three sons, Marvin Berenice and Otis, all survive and were present at the funeral.

She joined the Free Methodist Church early in life, and when she was married, she joined the M. E. Church South with her husband, to which church she remained faithful till death called her from this world, October 12, 1934, having lived on this earth 74 years, 4 months and 18 days, most of which had been spent in usefulness to humanity and the cause of her Lord.

She loved the church devotedly, and was a very strong supporter of it, both financially and spiritually, having taught the little ones in the Sunday School for the past 28 years.

She leaves three sons, their wives, and three grand-children, and a large number of relatives and friends who miss her presence in the home, in the church and the community.

These are but a few facts of this good and great woman, and her life will live on in the minds and hearts of all those who knew her best. "Gone, but not forgotten."

The funeral was conducted at the church where she had served so long in Tracy, Texas, by the pastor and Presiding Elder, Rev. E. L. Ingrum.

To Hill Country

Miss Myrtle Murray has been appointed district home demonstration agent of the Extension Service in District 4, which comprises the "hill country" of South-Central Texas. Miss Murray comes to her new position from the South Plains district. (Texas News Photos.)

M. J. Weige of Ben Arnold was a business visitor in Cameron Saturday. He is a reader of the Herald and called at the office of the publisher In discussing the cotton control plan Mr. Weige advances a sound idea and one that might compose all differences in the administration of the federal farm act. He believes that a farmer should cut his acreage and then be permitted to sell all he produces on that acreage. This plan he says would enable a farmer to dispose of his crop and at the same time cut down production. He believes better farming would result, and that cultivation would be more thorough.

COMPARISON

Are we a selfish nation?
Perhaps, I'm not so sure,
But where is there another
To offer us a cure?

Have we more crime than others?
It may be this is true,
But then among the nations
We number with the new.

Have we more love than others?
If not, we have as much;
We have a tender feeling
For those who use a crutch.

Have we more wealth than others?
A thousand times I'd say;
Besides this, they all owe us,
And none of them will pay.

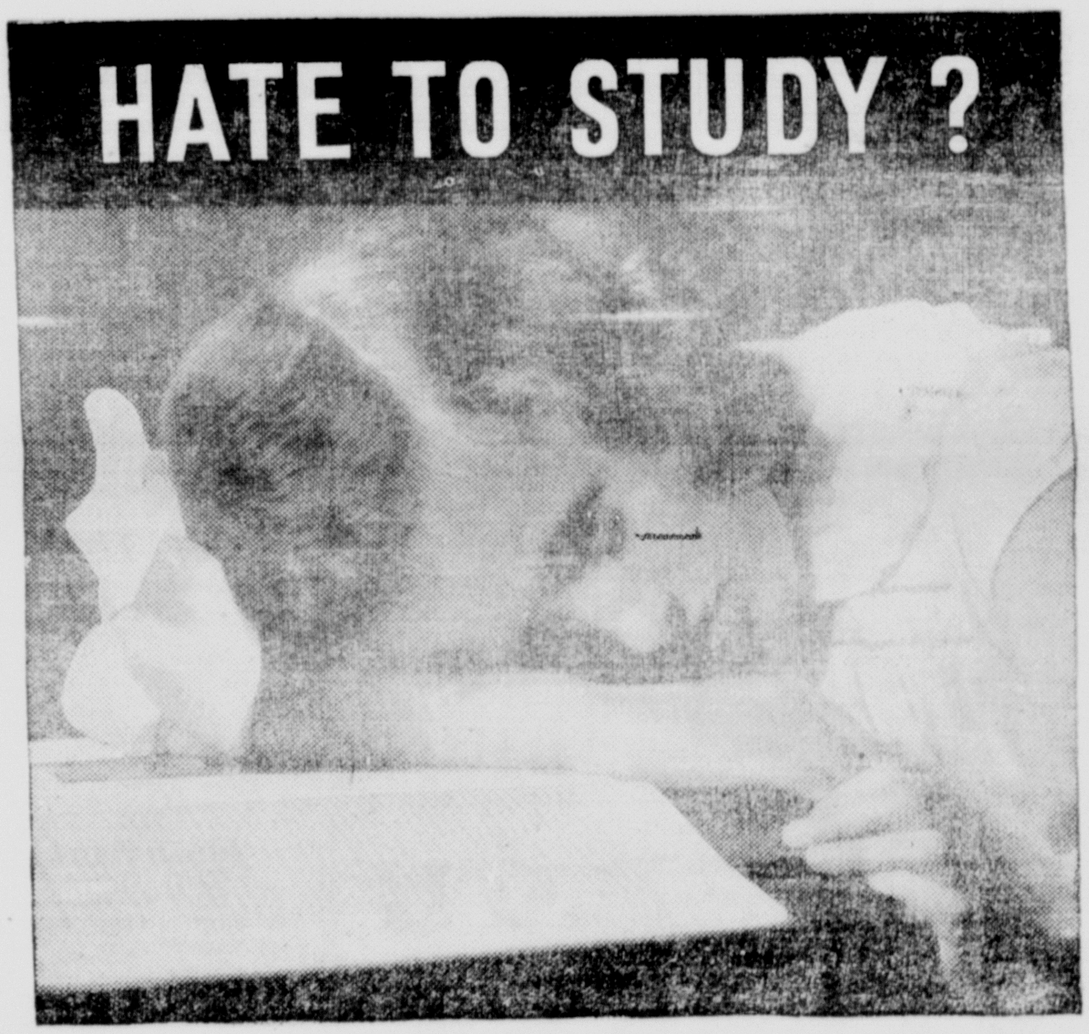
HATE TO STUDY?



POOR LIGHT MAKES STUDYING TWICE AS HARD
... AND MAY DO YOUNG EYES REAL HARM

Reading and writing and 'rithmetic are hard enough for a normal youngster to enjoy without being handicapped by poor light.

Your child may not know what the trouble is. But you can depend on this: the dimmer the light, the longer she'll require to study, and the more chance of serious eyestrain.

You don't have to be a lighting expert to test the efficiency of the light your child uses. Just sit in the chair she uses and see if you can read this line of fine print without squinting at normal reading distance.

If you can't, her light is too dim. So stop at the Mazda Lamp Dealer's and get a new and brighter bulb, or try—

THE NEW STUDY LAMP

The new type study lamp was designed by the Society of Illuminating Engineers to meet every requirement for close work. Light filters through the opalescent glass reflector right on your work to give ample light for close seeing without glare, while light reflected above gives general illumination for the room and prevents the strain of contrast between bright spots and darkness. The shade has a white enameled interior to increase efficiency and comes in several attractive designs.

Labor's Challenge To Religion

Religious leaders and men and women of all religions might afford to give some thought to recent remarks of President William Green, President of the American Federation of Labor, who occupied a pulpit in one of the churches of San Francisco during the recent convention of the labor organization.

Without intending to pass any judgment upon presen contentions between what is called capital and labor, we respectfully submit that the labor leader was on firm ground when he declared that if capital and labor wage a class war "then religion and ethics have failed."

Mr. Green believes, somewht naturally, that certain labor fundamentals rest "upon a basis of high ethical standards and doctrines, the teachings and precepts of religion.' He insists that if the church is to win the masses of the people there must be a "wider application of religious principles and religion itself to the human relations in industry."

We quite cheerfully endorse the general idea expressed. It is certain that oppressed and exploited peoples, regardless of the cause of their condition, are unable to understand a social state, "in which extreme riches and extreme poverty prevail." Moreover, to any thinking student of social conditions in the United States there are what Mr. Green calls "exploited" people.

There are others in the world besides laboring people who cannot endorse a theology or a philosophy that sanctions "the conduct of a powerful group in inflicting poverty, pain and physical distress," upon less fortunate individuals. Moreover, that this burden weighs heavily upon little children, who suffer throughout life for deficiencies in youth, is a greater reason for remedial efforts.

If those in the United States who worship in the name of religion will give some thought to the problems raised the solution will be easier. Of course, it is always a strenuous endeavor to make any individual consent to the relinquishment of special favors, whether they arise from birth, education or any other causes, but the way to real happiness for a people is to be found along the road of unselfish service and real sacrifice in the name of whatever religion the individual may have adopted.

Sentiment Against Criminals Needed

Attorney Cummings has called another national parley on crime for the purpose of building up sentiment throughout the country for co-operation to eliminate predatory chiminals, such as the rackateer, who preys on business and industry, the kidnaper and robber.

Citizens of Milam county will hardly attend the conference but they should be vitally interested in the purposes of the gathering. The apathy of people, more than anything else, is responsible for this amazing spread of criminal tactics in this great nation. Grafts, rackets and dubious schemes have multiplied along with the growth of other crimes and police officials have not acted with conspicuous success to combat the menace.

If every man and woman in our community realized the financial burden that organized crime places upon individuals everywhere there might be more sentiment behind law enforcement. The conference, we take it, is a move to secure popular recognition of the great evil involved and greater support for agencies of the law which seek to end the depredations of the lawless.

While the problems to be discussed deal with the causes and prevention of crime, and other allied topics, the meeting will focus public attention upon the need of greater effort to prevent extortions by the lawless. There is hardly a method of estimating the annual loss that honest men and women suffer every year from crooks and criminals of every kind but it is easy to realize that the time has come to call a halt.

Japan Has Ideas

The people of the United States may as well realize that in the far East Japan intends to occupy a dominating position, that her navy is strong enough to protect her seizure of Manchuria and that the Japanese, in seeking naval equality, mean to step out in the world.

To understand this thoroughly is to be able to properly pass judgment upon other matters of policy, such as the Open Door in China, which today exists merely because the Japanese refrain from closing it. Whether the United States, or other nations, would undertake a war to keep the gate ajar is a question. There are certain clear indications that most of those vitally interested are anxious for another power to hold it wide open and allow them to get the benefits without peril or expense.

In abrogating existing naval treaties, the Japanese seek to strengthen their dominance in matters affecting that part of the world, apparently willing to join in a naval race if necessary but probably believing that the United States, as in most of the years past, will be satisfied with a paper navy. In this the empire is apt to be mistaken, but, nevertheless, her rulers are apparently willing to take the risk.

For a GOOD Cup of Coffee

You start with Admiration Coffee, of course,—oven-fresh Admiration Coffee, to be exact.

How may you be sure the Admiration you buy **is** oven-fresh?

Admiration is now **vacuum** packed in glass jars to insure its reaching you just as fresh as when it left the roasting oven. And what a vacuum! Scientists have demonstrated that a vacuum of 29.5 inches can be pulled in a glass jar container, while it has not been possible to produce a vacuum above 26.8 in a tin can. Thirty inches would be the perfect commercial vacuum. We never were convinced that vacuum packing in tin cans was successful.

So, as usual, Admiration Coffee adopts the better way, in providing a container most efficient.

If you use coffee rapidly, or will keep it in a tight jar, you can still buy Admiration in cellophane wrapped bags,—at a saving of a few cents per pound. The same delicious Admiration you find in the vacuum jars.

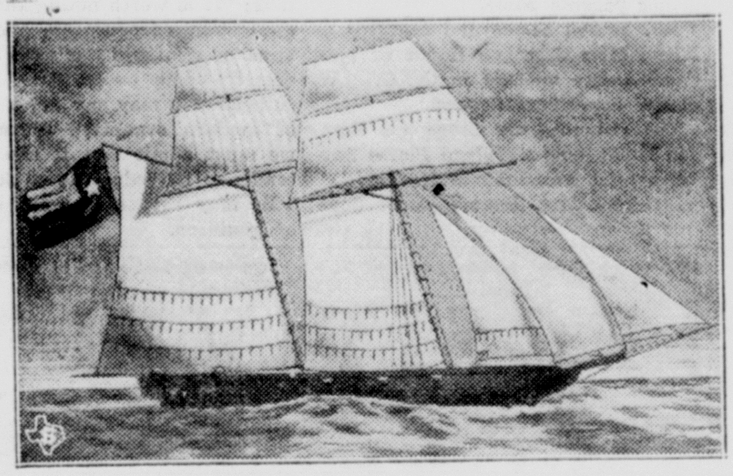
TEXAS HISTORY IN THE MAKING

No. 4—The Story of the Texas Navy



—Think—Talk—Write—Texas Centennial in 1936

The Texas Navy played an important part in the state's history. Early in 1836, before independence was declared, the Texas governor and council authorized privateers to harass the Mexican coast in the name of Texas, and these prevented the landing of Mexican soldiers and supplies on the Texas coast. By the end of 1836 the Texas Republic had a navy of four vessels—the Invincible, Brutus, Liberty and Independence—but in 1838 one had been sold, two wrecked and one captured by Mexico. In June, 1840, five new Texas ships and 71 men, in alliance with Mexican Revolutionists, captured Tobasco on the Mexican coast, levied a $25,000 tribute and with the money were able to remain at sea another 10 months. The above picture is from an old painting of the good ship San Antonio, one of the three ships with which Texas blockaded the Mexican coast in 1843 as a punitive measure after Mexico had made raids along the Rio Grande. An act of 1844 ordered all Texas vessels put out of commission and in 1846 they became a part of the U. S. Navy. (Texas News Photos.)

RALLY DAY SUNDAY

Next Sunday will be Rally Day at the First Methodist Church. Last Sunday there was an increase of 29 over the previous Sunday and it is hoped to show a larger gain next Sunday. There will be a general assembly at the conclusion of the Study Period. All members and friends are urged to be present at as many services as possible Sunday. Only two more Sundays before the close of the Conference year, and the pastor and officials of the church are very anxious to make them banner attendance Sundays for the year.

In the recent arms inquiry the interesting fact was brought out that a missionary had demonstrated to the officials of Latin American Republic the use of the tear gas bombs. One of the minister friends observed the other day that he believed that a tear gas bomb or two would be very wholesome for his cold and unemotional congregation.

Mrs. Jeff T. Kemp has returned from Carlsbad where she was called to the bedside of her sister, Mrs. John Dobbins who has been critically ill, but who is reported better. She was accompanied by her son, Thompson Kemp.

Black-Draught Brings Refreshing Relief of Constipation Troubles

Constipation produces many disagreeable sensations, several of which are mentioned by Mr. T. E. Stith, of Boonville, Ind., who writes: "I have used Thedford's Black-Draught many years when needed for biliousness and other minor ills when a laxative was needed. I have a tight feeling in my chest when I get bilious. I get dizzy and feel very tired, just don't feel like doing my work. After taking Black-Draught, I feel much better. This is why I continue to use it when needed." . . . Thedford's Black-Draught is a good, purely vegetable laxative, obtainable for 25¢ a package.

INSTALLATION SERVICE FOR BAPTIST W. M. S.

There will be installation services at the First Baptist Church Monday afternoon at 3:30 for all ladies of the church and congregation. The following program will be rendered:

The spirit of W. M. U. in military costume will advance at the call of the bugle and drum. She will summons the Milam county W. M. U. president to act as installation officer. Then she will call the W. M. S. officers and committee to receive the charge and prepare for action.

Dedication prayer, Mrs. N. D. Timmerman.

Dedication song, Mrs. Kuehl, who will also play the march and furnish soft music throughout the program.

After the short installation service the guests will be conducted to the church parlors for an informal hour of conversation, fun and frolic. An effort will be made to get a personal invitation to every Baptist woman, but if one does not get it, they are asked to accept the invitation through the paper, and show your fellowship by being present, for you are wanted.

The telephone had its birth 58 years ago in a make-shift Boston research laboratory, where Alexander Graham Bell watched a tiny straw attached to the eardrum of a human skull trace a wavering line on smoked glass.

Since then, telephone history has been told in countless scientific problems solved. Bell Telephone Laboratories, research arm of the telephone service, is the reason you now may talk across continents and seas, that most telephone wires are underground, that a single long distance line may carry four simultaneous conversations.

Research scientists at the Laboratories search constantly for inventions and improvements that may be devoted by the Southwestern Company, and the other Bell operating companies, to keeping the price you pay for telephone service low.

Back of this fundamental policy is the belief that in an undertaking planned like the telephone service for the long pull, what is best for the telephone user becomes in the end the policy that will bring us the sounder, more enduring measure of success.

IMPROVES PANTRY

My pantry was made from some of the scrap lumber after remodeling of our church. We traded an old stove flue for the lumber and for a cost of 75 cents, for nails and paint, I now have a pantry with 25 feet of shelving space, Mrs. John Blaisenzen pantry demonstrator for the Clarkson club told the Achievement Day visitors.

In spite of the dry weather conditions, Mrs. Blaizisen has stored 194 containers of food, consisting of 21 different varieties, giving her pantry a value of $177.71.

The following is the traditional method of treating smallpox in India: "The patient will kill a hen and pour its blood over a sacred image." Then presto! The patient often dies within a few days.

BIRTHDAY PARTY

An enjoyable affair for the little tots was the birthday party given by Mrs. Jack Lewis honoring the fifth birthday of her small daughter, Rebecca Joe Lewis, Friday afternoon, October 12.

A pretty Hollowe'en motif was carried out in the party and noted in all appointments.

Forty-one little friends gathered to help the honoree enjoy her birthday. Games were conducted by Miss Dorothy Blaylock on the lawn and later the guests were invited to the front porch where a pretty yellow birthday cake was cut and served with ice cream cones. Hallowe'en balloons, horns and Jack O' Lanterns were given as souvenirs to the guests. Later guests were grouped for a picture, which was of much pleasure to all.

Mrs. L. L. Blaylock, grand mother of the honoree, assisted in the hospitalities of the occasion.

Fourteen years was the span of Alexander the Great's reign; and in it he altered the whole course of the world's history. It does not take a genius long to negotiate changes.

The other day I read a statement from the writings of T. R. Glover which startled me somewhat. Here it is: "It is worth noting that the organization of education and the decline of genius, by chance or of necessity, came to ancient Athens together." We may say much in behalf of modern organized education, but we must admit that it has a strong tendency to reduce to a dead level. This may account for our slim crop of geniuses.

FORDS WILL BE IN NEW YORK SHOW

New York, October 115.—At the drawing held here today by he New York Automobile Merchants Association for the New York Automobile show, which will be held in the Grand Central Palace January 5 to 12, the Ford Motor Company was assigned space No. A-11, first floor; B-3 second floor; and E, F, G, third floor and the Lincoln Motor Company space No. B-8, second floor, according to H. H. Stedman of the Hefley-Stedman Motor Company.

Due to the fact that in the past the New York Show has been conducted by the National Automobile Chamber of Commerce the Ford Company has never participated, because of its not being a member. This year it will be sponsored by the Merchants Association, in which the newly formed New York dealership, the Ford Motor Sales Co., Inc., and Theodore Luce, Inc., New York Lincoln dealers, have membership. James Van Etta and Joseph G. Lewis of the Ford Sales Motor Co., represented the Ford and Lincoln interests, respectively at the drawing.

Elaborate plans are being made for the forthcoming show and its organizers predict that it will be the best ever held. Alfred Reeves, vice-president and general manager of the former National Chamber will manage it as usual, the Automobile Manufacturers' Assocition haing donated his services to the Merchants Association.

Although the Ford Company has not yet announced to what extent it will participate, in view of the fact that this will be the first time in 28 years that it has been represented at the New York Show, it may safely be assumed that the Ford exhibit will be on a satisfyingly large and impressive scale.

Miss Irene Vogelsang Becomes Bride Of Willie Meese In Impressive Ceremony At St. Michael's Church In Burlington

A beautiful church wedding of wide interest was solemnized Tuesday morning October 16th at nine o'clock when Miss Irene Vogelsang daughter of Mrs. Tony Vogelsang of Burlington, became the bride of Willie Meese, son of Mr. and Mrs. Frank Meese of Westphalia, at St. Michael's church at Burlington. Rev. Father O'Sullivan waited at the altar and read the impressive ring ceremony, followed immediately with Nuptial Mass, and was assisted by Rev. Father Nicholson of Hempstead.

The sanctuary was attractively decorated with white chrysanthemums and candles, making a beautiful setting for the plighting of the vows.

John Busker presided at the organ and rendered the wedding music. Little Jimmie O'Neil was ring bearer and Katherine Rose Krause was flower girl. Both dressed in white satin, led the bridal procession.

Miss Evelyn Meese, maid of honor, wore a lovely blue crepe dress made on ong lines and carried a bouquet of yellow chrysanthemums, and was escorted to the altar by Alvin Olbrich. Miss Norene Kleypas, maid of honor, wore a similar gown of pink crepe, and carried a bouquet of orchid chrysanthemums, and was attended by Monroe Vogelsang, brother of the bride.

Miss May Nolan of Austin, bridesmaid, was costumed in a peach colored crepe dress and carried yellow chrysanthemums and was escorted by Harold Kleypas.

The bride was given in marriage by her brother, Edwin Vogelsang, and approached the altar dressed in a long close fitting bridal robe of white satin and wore a beautiful silver brocaded jacket. Her slippers were white satin that were set with rhinestones. She wore a wreath of orange blossoms and her long veil formed an embroidered train. For something old she wore a unique broach that had been worn by her grandmother. She carried a beautiful bouquet of small white rosebuds showered wth Valley lillies, bowed with long streamers of white maline.

The groom was attired in a suit of navy blue and wore a buttonier of white carnation.

During the Mass the St. Michael's choir, assisted by Leo Henry and Harold Kashburg of Westphjalia, sang hymns. At the offertory of the Mass, Miss Virginia Weems, of Cameron, cousin of the bride, sang a hymn and was accompanied by James Busker.

After Mass the couple received the good wishes of many friends from Rosebud, Ben Arnold, Cameron, Burlington and Westphalia.

Dinner was served to seventy guests at the home of the bride's mother.

The bride chose for her going away gown a lovely traveling suit of brown tweed trimmed in brown fur, with brown accessories.

Those to attend from Cameron were Judge and Mrs. John Watson, and daughter, Miss Madie; Mr. and Mrs. Owen Weems and daughter, Miss Virginia Weems; Mrs. W. E. Gaither and daughter, Mrs. Alvin Nolte; Judge and Mrs. Jeff T. Kemp, Mr. and Mrs. John Owensby, Mrs. Oscar Schiller, Mrs. Paul Laake, Jr., Mrs. Joe Luce, Mrs. Robert Weems and Mrs. Albert Evard.

Mr. and Mrs. Meese will make their home in Burlington.

Practically all of the Cuban cigar factories have in them a person who is called "a reader." He sits on an elevated platform in the large rooms where cigars are made and reads aloud from Cuban and Spanish books, periodicals, and papers during the hours the cigar workers are at work. Many cigar makers owe their education, such as they are, to these readers.

CANNAN PLEASED WITH FOOD AND STYLE SHOW

Rev. Walter L. Cannan, pastor of the Methodist church says the Pure Food and Style Show was a great success.

No where in his experience has a town put on a better display or shown a better spirit of co-operation. The Church is deeply grateful to every one who made a contribution to the success.

The entertainment was all voluntarily given in a community spirit.

The fnnancial side netted $300.00, which will be used in the General connection work of the church for building and maintaining schools, hospitals, orphanages and Missionary work in general. Not any of it is expended for the local expenses of the church.
